MEMORANDUM FOR: Task Force Members

SUBJECT : Telling the Intelligence Story

1. The Director has approved several of the suggestions sent to him on the subject of telling the intelligence story. His comments are attached.

2. We would like to move ahead with identifying and developing feature stories, articles for publication, or features for television. Please note particularly the subjects he checked at Tab A. We hope to begin work on these with the appropriate offices as soon as possible. In addition, we would appreciate your polling your Directorate or component for any other suggestions along the same general lines. As we have noted before, we do not intend to burst forth with a large number of such items, but we would like to have some material available for use when a suitable opportunity arises.

3. We would also like to receive whatever suggestions you have regarding senior statesmen who could be of assistance. If you have suggestions on the most suitable way to approach them, we would certainly need that information as well.

  
Angus MacLean Thuermer  
Assistant to the Director
